Entre influences années 50 et inspiration asiatique, la bibliothèque Celta de Sacha Lakic se compose d'une structure en noyer dont les lignes graphiques adoucies sculptent l'espace avec légèreté. Elle joue avec les contrastes du mur, et ses étagères, au profil fuselé, sont dynamisées par des supports de livres obliques.

A blend of 50s influences and Asian inspiration, Sacha Lakic's Celta bookcase features a walnut structure whose softened graphic lines sculpt the space with lightness. It plays with the contrasts in the wall, and its tapered shelves are enlivened by sloping book supports.

Mezcla de influencias de los años 50 e inspiración asiática, la librería Celta de Sacha Lakic presenta una estructura de nogal cuyas líneas gráficas suavizadas esculpen el espacio con ligereza. Juega con los contrastes de la pared, y sus estantes cónicos se animan con soportes inclinados para libros.
